Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

1. This letter is responsive to the petition received on 8/15/2007.

The request to correct the inventorship of this nonprovisional application under 37 CFR 1.48(a) is deficient because:

The request was not accompanied by the statement required under 37 CFR 1.48(a)(2).

(2) A statement from each person being added as an inventor and from each person being deleted as an inventor that the error in inventorship occurred without deceptive intention on his or her part: (MPEP §1.48(a)(2))

It lacks the written consent of any assignee of one of the originally named inventors.

An oath or declaration by each actual inventor or inventors listing the entire inventive entity has not been submitted. The document submitted is missing part of the data for the third joint inventor: Lionel Oisel. Correction is required.
